

PROJET : Oversea Transport Manager

We are looking for a reliable Oversea Transport Manager to be responsible for the international flows of ALBEA CRP Product Line. Mission scope is mainly Asia to Europe or Asia to US importations, including storage and distribution of goods.

The goal is to manage the entire order cycle so as to enhance business development and ensure sustainability (cost control) and customer satisfaction in a challenging environment.

Key Accountabilities:

- Import/Export and distribution management
 - In cooperation with logistics coordinators, define the weekly shipping plan with the factory to reduce transportation cost while ensuring a timely delivery to the customer
 - Give instructions to the logistics provider to ensure a fast and efficient delivery to the customer while meeting the customs and accounting regulations
 - Define the invoicing requirements with the forwarder and realize the invoicing control and adjustments if needed.
 - Forecast exceptional transportation cost (air).
 - Guarantee customer commitment on air freight cost.
 - Manage Albea forwarders panel, assuring partnership and cost optimization.

Key Competencies:

- Knows how to promote customer's interest internally to reach expected delivery dates.
- Requires the ability to work well under pressure in a team environment
- Must be able to prioritize work and to be an effective problem solver
- An ability to maintain a positive focus and attitude both internally and externally
- An ability to work well with other functional areas within the business
- Pro-active mind with ability to bring simple and efficient solution proposals
- Strong communication skills, both written and verbal
- Multicultural awareness

Education:

tbd

Experience:

- 7 years experience oversea transportation / customs
- Understanding of industrial constraints and organization
- Experience in managing logistics partners and ability to negotiate.

Knowledge/Skills Required:

- Fluent in English
- Computer literate, Microsoft Office
